

TO: David Hayward
Michael Wilson
Cc: Lewis Ford

DATE: 1 February 2017

David and Michael, this is the latest version of our questions, including new input as a consequence of our meeting. You can destroy the hard copy I gave you on Monday, and please distribute this new version as you deem fit.

A handwritten signature in black ink, appearing to read "D. J. Parham". The signature is written in a cursive style with a large initial "D" and "P".

Dave Parham

ROAD QUESTIONS

- 1 What is the current flood risk assessment for the A3023? (A risk assessment was included in the 2014 SHLAA Plan but has disappeared in the 2016 plan – what does this mean?)
- 2 What are the proposed solutions/costs to alleviate/remove the flood risks on both sides of the bridge? The 2014 SHLAA contained a preliminary estimate of £30 million. Is this still valid?
- 3 What is the expected lifespan of the existing bridge?
- 4 What plans are in place to cope with a major incident resulting in short- or long-term loss of the bridge?
- 5 When will the 'end of service life' replacement plan for the bridge commence?
- 6 What is the status of the west coast of the Island?
 - Who is the current owner?
 - What is the current category (e.g. no intervention for erosion?)
 - What are the plans for the Billy Trail?
- 7 What is the acceptable capacity of the A3023?
 - Total capacity
 - Spare capacity
 - Traffic growth forecast
 - Projected time frame to reach saturation
- 8 What plans/proposals exist to improve safety on the A3023? E.g.
 - Laybys for broken-down vehicles
 - Traffic separation
 - Pedestrians
 - Cyclists
 - Cost Analysis
- 10 What are the short-term plans/projects to improve traffic flows?
 - Road widening
 - Traffic separation

- Other
 - Cost analysis
- 11 What is the short- and long-term impact of the projected traffic growth on the emergency services response times, and what plans are proposed to alleviate this?
 - 12 What are the long-term plans to increase the capacity of the A3023? This will be required to support the projected housing unit growth forecasts.
 - Available options
 - Costs
 - 13 What is the formula used to calculate traffic volumes from housing units constructed?
 - 14 How are the windfall housing unit increments accounted for in the traffic growth forecasts?
 - 15 When the road becomes gridlocked, what proposals does the highway authority intend to implement to overcome the difficulty that this would cause the Islanders?
 - 16 What proposals are in place to deal with the result of a major incident on the A3023 causing either temporary or permanent disruption?
 - 17 What arrangements have been made to control the opening of the highway by utility companies etc?

HEALTH SERVICES QUESTIONS

- 1 What is the ratio of full time Doctors to Patients on Hayling Island? How does this compare with NHS recommendations, given the demographics of the Island residents?
- 2 How is the number of residents, together with the annual growth figures, communicated to the Health Authority?
- 3 Is the Health Authority provided with advanced housing growth projections for Hayling Island to plan appropriate service provision?
- 4 How is the increased funding for the annual growth arrived at and when is it paid to the Health Centre?
- 5 How are the large number of mobile home residents accounted for in the above levels and ratios?
- 6 What was the resident increase in 2016 recorded as by the Health Authority?
- 7 What are the expansion plans/projects for the Health Centre to support the projected growth in residents through the 2036 planning period?
- 8 When was the last Customer Survey on the Hayling Island health services undertaken? Please provide access or a summary.
When is the next survey planned?
- 9 What is the status of the hub/spoke project in the south of England?
- 10 If and when do you anticipate this project impacting the Hayling Island Health Centre, and what is the likely outcome?
- 11 What is the emergency response on Hayling Island as measured against:
 - Hampshire averages
 - County targetWhat are the plans to achieve the target?

DRAINAGE QUESTIONS

- 1 What are the current problems with the foul drainage system in the Mengeham area? It has been ongoing for at least three months and now seems to be starting up again.
- 2 What is the status of the drainage network?
 - Total capacity
 - Spare capacity(by area/pumping station)
- 3 What is the performance/uptime of the pumping stations?
 - Number of failures in 2016
 - Number of raw sewage releases in 2016
- 4 How many raw sewage releases were made into Langstone Harbour from Budds Farm?
- 5 What upgrades/expansions are planned to support the housing growth plans?
 - Timeframes
 - Costs
- 6 Please provide access to your complaints database or provide a summary.
- 7 How many surface water outlets are in place draining into the sea around the Island, and who controls their water quality?
- 8 Why are the recent development sites serviced by private surface water disposal systems?
Who is responsible for their performance and safety?
- 9 Why are the new developments reverting back to non-adopted road systems?

HAVANT BOROUGH COUNCIL QUESTIONS

- 1 What is the official position on the Rook Farm development proposal?
- 2 What is your defence strategy, if any?
- 3 What is the current plan for sea defences for the Island covering the period 2020-2036?
- 4 What major projects are envisaged during this period?

UTILITIES QUESTIONS

- 1 Is the water pressure at the 2nd level (house delivery) acceptable? Are the problem areas
- 2 General
What is the spare capacity of the service?
- 3 What expansion/replacement will be required to absorb the Housing Plan through 2036?
- 4 Are there any risks to the services in the high flood risk areas of the Island?

EDUCATION QUESTIONS

- 1 What are the recorded performances of the Hayling Island schools, and what remedial action (if required) is planned?
- 2 What is the spare student capacity by school?
- 3 What are the plans for expansion to absorb the proposed housing growth to 2036 (if required)?
- 4 What are the 'end of life' replacement plans for each school?
